

FROM THE PUBLISHER

LET THE COMMON WEALTH SPREAD ROUND AFRICA

At last the highly revered Coronation of King Charles III has come and gone. The World look forward to a New Dawn where Our Common Wealth will be protected and used to pursue peace and development that will have a major impact on all Common Wealth Member States. It Should be a new era of support and encourage the less privileged Members in order to rid the Nations of all forms of limitation that has held some member nations backward. The Common Wealth as the name implies should go around and liberate poor nations particularly in Africa from the clutches of poverty, hunger and underdevelopment. If the Wealth is common then every Member Nation should feel the impact in their Social, Economic and Political life. A situation where colonial masters have carted away our wealth and endowment in the name of common wealth and living in affluence while the real owners of the wealth continue to live in penury and abject poverty is certainly not acceptable. The world therefore looks up to the new Head of Commonwealth for more reprieve to Member nations in the area of health Care, Education, fight against crime etc. It is very imperative to note that many developing countries in the Commonwealth of Nations especially in Africa are struggling with the provision of basic services such as power and water and experiencing economic decline and wide spread poverty in addition to extensive violence and insecurity. It will not be out of place for the New Head of Commonwealth to do everything possible to ensure that the equation is balanced and all member Nations are equally treated so that there will be even development, peace and progress among the comity of Nations in the Commonwealth. This must be the path way to go for a new dawn.

The 2023 First Ordinary Session of the ECOWAS Parliament has just ended in Abuja the seat of the Parliament.
