

# Bill Gates funds terrorism in Nigeria, Profiles Doctors, Group Writes Presidency, Senate, others

*BY ABDULMUMIN GIWA*

The American business man and philanthropist, popularly known as Bill Gates has allegedly been a caused of funding terrorism and profiling Nigerian medical doctors elimination. This is contained in a letter to the Senate president Godswill Akpabio dated 15th March, 2024 and signed by Dr Phillips C. Njemanze, Chairman Global Profile Alliance, calling on the Senate to invite the group over for investigation over the allegations made. The heading of the letter reads: "Planned Genocide of Doctors in Nigeria by Bill Gates". The letter, also copied to the presidency, Speaker of the House of Representatives, Bishop Conferences in Africa, US Congress, European Union, UN member countries, African Union Organization, as well as Agencies on Human Rights among various others also urged the National Assembly to stop all data collections in Nigeria by foreign agents through the Federal Ministry of Health. It also called on the National Assembly to immediately suspend operations of all NGOs linked to Bill Gates and BIOTECH companies labeling them as national security threats and cooperation with them as potential treasonable felony. The group also wants the GMO seeds cultivation and distribution in Nigeria to be banned with immediate effect, while calling for the amendment of the National Biosafety Management Agency Act 2015, as well as repealing the National Health Act 2024 that authorizes collection of gametes and organs without consent. The group finally called on the National Assembly to commence hearing on the National Security Threat posed by Bill Gates, BIOTECH companies and their affiliates in Nigeria.

Part of the letter reads as follows: "We, the Global ProLife Alliance (GPA) want to draw your attention to a clear and present danger of planned Genocide of Doctors in Nigeria by Bill Gates. "Since 2009, Bill Gates has sponsored terrorists branded Boko Haram, Bandits and Herdsmen to carry out genocide of farmers in Nigeria to capture Nigeria's Food Security by implementing advanced Mapping System with Electronic Wallets Cell Phones facilitated by the Federal Ministry of Agriculture under Hon Minister Dr Akinwumi Adesina. "The Nigerian Farmers especially Seed-growers were tracked and killed in their homes and farms. "Consider this from 2015-2018, 37500 farmers were killed, 32000 were Muslims and 5,500 were Christians. Despite, the fact that 85% of the victims were Muslims, the international and local press propaganda mercenary bribed by Bill Gates branded it "Islamic Terrorism". The victims were labeled the perpetrators and the

latter the "philanthropists". Any attempt to uncover the truth is met by another orchestrated kidnapping of school children for ransom to depict it as criminal activity rather than operations of Bill Gates and his Biotech accomplices. "We write to warn that Bill Gates has began a new phase targeted at genocide of all doctors and other health professionals in Nigeria using similar Cell Phone Mapping System guided with GPS technology. "The program is termed the third phase (2024) of the National Health Facility Survey (NHFS). Bill Gates hiding under his multiple organizations like the Global Fund is gathering data of doctors and other health workers with facilitation by the Federal Ministry of

Health (see attached circular dated 27th February, 2024 REF.: MH/AD/1851/1/7). We strongly allege that the intention is to kill the health workers in Nigeria at their facilities. "We will provide evidence to this effect when the National Assembly opens investigations on this. Health is national security and privacy of data is guaranteed by the 1999 Constitution of the Federal Republic of Nigeria.

"As an immediate stop-gap measure, NASS should issue a resolution stopping all such data collections pending further investigations. As we have previously

alleged, the aim of Bill Gates and his BIOTECH cronies is to capture the food security of Nigeria and replace all natural seeds with toxic sterilizing genetically modified (GMO) seeds and hence can implement an Egg for Food program. "In the Egg for Food Program, millions of Nigerian farmers would be told to have their wives and daughters forcefully donate their ovarian eggs in exchange for GMO 'suicide' seeds for planting. Other Nigerians who eat the poisonous GMO foods with sterilizing 'Monsanto Epicyte Genes' would rush to In-vitro Fertilization (IVF) Clinics to help them conceive, but instead their ovarian eggs would be poached for BIOTECH Labs abroad. "This would in turn provide the BIOTECH companies over one hundred million ovarian eggs needed to perfect human organ cloning. "The Bill Gates Cloning Business is estimated to be worth thirty trillion US Dollars, one third of world economy. "Nigerians are the guinea-pigs for Bill Gates biotech industry because their government failed to protect them. "It is estimated that over 10 million Nigerian women would die. The ovarian eggs of Nigerian women would be poached at a network of 250 hospitals owned by Bill Gates in Nigeria for which a contract for construction has been awarded. "It is clear that Nigerian doctors would not cooperate with this evil plan, hence all practicing doctors in Nigeria must be eliminated. The attempt to buy off the doctors in the private sector failed."
