

# Coalition On Course: ADC is APC'S NEMESIS

By Chris Ojeikere

**I**t has been a journey of political brinkmanship! The 'Ship' is now wisely and safely berthed in the inevitable and immovable harbour of ADC, the aforementioned harbour of Goodwill to Nigeria's deprived and suffering masses! The ominous Coalition, supervised by the nation's most politically Brilliant, the Experienced, the Passionate, the Popular and the Perspicacious, is a Vision of Futurism, which precocious leaders have so deftly midwife from conception to delivery with clinical dexterity! The inane reactions from the constantly inebriated Abuja Noise maker, and Reno Omokri, the jerky, restless, attention seeking loser should tell all Nigerians that the APC can see the Hands and Writing on the wall. But, unlike Beltashazer, can also see the interpretation loud and clear! So, clearly, they are thrown into great disquiet! And are reacting in uncoordinated staccato.

In Edo State, the Coalition was in the capable hands of the very best in the top echelon of our national political profile. They took charge of the incumbent national CHARGE with equestrian mastery! Eight good months was spent to perfect a solid political Foundation for Edo State going forward. They maintained the ship of character and integrity, with a quiet determination to finish an incumbent calling. Now the job is done, the Foundation laid! Edo sons and daughters would soon be delivered a platform to pursue progressive politics and development! We salute our leaders!

Earlier on in the day, when young antelopes were given the dance floor to dance themselves lame, when the real dance was yet to begin, arrogant naysayers had predicted the doom of the Coalition with the gleeful hubris characteristic of empty drums and loud noises. They predicted every single nemesis in the books, except for the one and only real Nemesis: \*the Fall of the APC! \*

Alienated from the people and from reality, by their indolent over - indulgence on our common patrimony, the Imperial

***The oppressors saw it coming, but they have no answers to it! No one is listening to them anymore! They are at the moment confused. Nigerians are inexorable in solidarity against a loser regime. Whether within and across party lines, including their Party of strange bed fellows. Nigerians are solid on one concept, APC Must Go! Kabiesi Tinubu must go in 2027! Period! They simply have no idea! Tinubu set himself up by coercing all those defected Governors into one Community of losers. Now we can see on Parade, the nation's most unpopular set of leaders since independence! They thought it was political maneuvering, assembling themselves together; they didn't know they were exposing themselves to us. Today, Nigerians now have a clearer vision of the direction to look, if they are looking for governing failures, incompetent public space occupiers, basic instinct- driven politicians. We now know where NOT to look for leaders!***

President, and his Dukes and Fiefs in the States, still cannot understand the degree of their rejection by Nigerians; not just for their intolerable failure and unmitigated incompetence, but also, for their shameful ignorance of their monumental failure!

They are so ignorant they don't even realize Nigerians have long stopped listening to anything they have to say. It is the only way for Nigerians to restrain themselves from bursting out against them! Just ignore them the people concluded! Just ignore the liars, the Masters of broken promises, the Hunger Creating regime that delights in callous looting. Ignore the heartless flaunting of their ostentation and squander mania in the face of hungry Nigerians. We Nigerians simply thought to ourselves to just ignore them and hope for redemption. And behold, Redemption has come! the Coalition has berthed!
