RAISING A GODLY GENERATION

JOIN THE TEAM THAT MAKES IMPACT

It's been a good year and we are grateful to as many that have been a part of our success story so far. Thank you for your love and support throughout the year 2024. As the year is rounding up, we must make someone smile, someone laugh and someone hopeful. No matter the phase you are in, you can still touch a life. You know, it's weird to see a lot of people finding joy in forming committee of friends for burial of the dead and not for the living. We in TGWAC find joy in forming committee of friends to help and encourage young people in school who need support committee to help get a job, committee to establish business, committee to change others status from bad to good, etc.

Life is for the living, join us as we keep touching and impacting by making lives meaningful. Some committee of friends can raise millions or even billions to bury a friend but cannot raise funds to support hospital bills of patients who have been

discharged but are not allowed to go because they cannot afford to pay their bills. Some young students are littered across institutions of higher learning struggling to pay their fees and meet up with their basic necessity yet there is nobody out there to lend a helping hand. So many are hungry and can barely one square meal and yet they go hungry with no one to assuage the hunger. Let us change the norm and begin to build lives because a tree cannot make a forest. Which is better, raising fund to impact lives or raising funds to bury the dead who is not even conscious of the billions that have been raised for his burial?

We should establish committee of friends that will help to touch other people's lives, help to relieve people of financial struggles as well as help indigent students concerning their academics and education.

Let us all focus on the beautiful tomorrow that we dream of, the tomorrow with less struggles, the tomorrow with unity, happiness and love. We can achieve this, by making the best out of our today by positively assisting those in need with our time, resources and words of encouragement; giving them the push to make the best of their today which will enable us all to have a brighter tomorrow.

We in TGWAC; we help, support and encourage the young minds to be their best so they can have a glorious tomorrow. You can join us to be a part of a committee of meaningful, productive and relevant people whose focus is to support the less privileged individuals and young ones out there who need help to make the best out of their lives. Resolve today to bless a soul by contributing to this worthy cause in whatever way you can.
