

TGWAC:(Teenage Guide with Aunty Comfort) RAISING A GODLY GENERATION

THE IMPORTANCE OF GIVING BACK AND SUPPORTING OTHERS

When we give back, we create a ripple effect that goes far beyond those we help – especially when we give from the little we have than when think we have nothing to give. We are operating out of a mindset of abundance, telling ourselves and others that we believe our generosity will come back to us and that we will be taken care of. Instead of worrying about what's in it for us, we should rather be grateful for the privileged life has offered us to be in a position to help others who are not as fortunate and privileged as we are. God who is the ultimate rewarder will certainly not forget your good deed which you have done unto others as unto Him because His Word has clearly told us that whatsoever good you do unto others that you have done unto Him. Even small or little efforts can create impact and encourage others to be kinder, more forgiving and more willing to extend a helping hand.

How giving back benefits you. Giving helps us to find meaning in our lives. Giving back and learning how to make an impact on others provides that meaning because it makes life about something much larger than us. It fulfills our essential human need to feel significant as well as the human need to contribute to support others. When we help others, we grow in our personal lives and make progress toward unlocking an extraordinary life which God has reserved for those who love to give. It helps us to break out of our limiting beliefs about how much good one person can actually do in the world and see firsthand that even the smallest acts of kindness can transform lives. When you give back to other people and your community, it reminds you what you were created for which is to impact. Focusing on the needs of others has a way of motivating you to do more than you thought possible. You feel the benefits immediately. You become more productive. You find creative solutions to problems. You find strength when you are exhausted. That's because life supports that which improves the quality of life of others. When we contribute to our community, we become part of something that is bigger than ourselves. That is why we are inviting you to partner with us to give back to the society in our own little way and help sustain some students in the higher institutions who by one circumstances or the other are not able to meet up. We cannot totally stop crime and criminality but we can help reduce it because if they get helped, the focused ones will remain focused. That little support or help will go a long way to make a big difference in many lives.

When you evaluate your life, you will likely find that if you don't make a positive impact on the lives of others, you will feel that something is missing. When you commit a portion of your time, energy or resources to helping others, you will create a deeper sense of fulfillment and an unending joy and grace for yourself that encourages you make more impact on those around you. To partner with us, just donate a minimum of N1, 000 into account No. 2258779183 UBA (Teenage Guide with Aunty Comfort). You never know
