

# STILL ON DEVELOPING A GOOD ATTITUDE

By Aunty Comfort

*Ability is what you are capable of doing. Motivation determines what makes you to do it. Attitude determines how well you do it.*

**A**ttitude is everything. This is simply because every principle of success is expressed in our attitude which sometimes make attitude the single most determining factor of success. Attitude is both your best friend and your worst enemy because it attracts people to you or repels them from you. Your attitude expresses itself in everything you do all the time; wherever you are, people can see it, hear it in your voice, see it in the way you move and feel it when they are with you.

Right attitude is the product of a sound mind that makes you to take the right step and move the right direction in life. The right attitude will prepare you to take up the obstacles as challenges and move persistently with the commitment to fight them with patience, perseverance and the right mental attitude.

Your attitude shapes your goals and affects how you perceive, view and approach things and issues in your life. The wrong attitude will make you want to quit at every obstacle, see challenges as problems and develop a damaged impression and lose total confidence in yourself.

As you keep in mind that positive and negative attitude are infectious, having the right attitude can turn threatening situations into opportunities, obstacles into achievements and move you into greatness. Face any difficult task or assignment with passion, vigour, self-discipline, temperance and a mind to be successful. The right attitude will deliver the major breakthrough and make the difference at the time you need it most in your career growth.

With the right attitude, you will be emotionally strong enough to climb the tough heights of success and walk through the pains of failures. You will

learn to see your mistakes as an opportunity to learn how to do it in a different and better way and get stronger. It is the right attitude that keeps you going days when all hope seems lost.

As you take charge of your attitude you open the door for success in your life. So your attitude about your vision, school, your subjects, your teachers and about your class will ultimately determine the

quality of your work and studies.
