

FROM THE PUBLISHER

Government must take urgent step to rescue the Mining Sector.

The Federal Government must take advantage of the proceeds from our mining sector to improve the nation's economy. Billions of dollars is being carted away daily from the exploitation of our solid mineral. It appeared that all the regulation put in place by the Federal Government is yet to achieve the expected result as the sector is still very porous because according to the House of Representative committee on solid minerals the country is losing over \$9 billion dollars annually to illegal mining and this development is militating against the development of the sector. Conflicts over the control of mining sites by illegal miners often escalate into violence and insecurity. It therefore becomes very imperative for the Federal Government to take urgent step to address the issue in the overall interest of the country. This unregulated exploitation of our natural resources jeopardizes the sustainability of the mineral sector, leading to environmental degradation and revenue loss that could otherwise benefit our communities and nation as a whole. This takes the Cover of our November Edition with a caption; **THE RAPE OF NIGERIA'S MINING SECTOR**, How local cabals collaborate with foreigners to fleece Nigeria of billions of dollars.

We formally congratulate our Nigerian –born industrialist and renowned humanitarian, Dr. Aisha Achimugu who was honored recently with President Biden's Lifetime Achievement Award in recognition of her lifelong commitment to philanthropy and community service. The Award presented during the Innovative Africa Gala Night in Washington D.C. highlight her unwavering dedication to empowering lives through her NGO, the SAM Empowering Foundation. Dr. Aisha Achimugu we are proud of you.

You may have been seeing our promo on **DANGOTE VS NNPCL** which is yet to hit the newsstand. This is because we have reached out to the Management of NNPCL requesting that GCEO Engr. Mele Kyari respond to the various allegations we have about his activities in the Corporation. We however received a response from the Management eulogizing our organization for acting professional by reaching out to corroborate the information at our disposal but added that the exclusive chat cannot be granted to us at this point in time for whatever reason we were not told. So our Management has decided to continue to run the promo until the Management of NNPCL decides to hold the chat with us. It is our constitution right to hear from Management of the Corporation so that our story will not be one sided. We shall keep you posted. Our regulars are still there for you. No matter what Nigeria is going through now our tomorrow will be alright because God is on the throne. He never fails and His authority is sovereign. It shall be well.
