RAISING A GODLY GENERATION

WORDS TO OUR YOUNG MEN; Control Your Sexual Urge Or Struggle Emotionally And Financially

By Aunty Comfort

Many young men think they can chase women and chase success at the same time. Big mistake! If you cannot say NO to pleasure, money or success will say NO to you. Look around—men who are always chasing women never go far in life. Here's why sexual discipline is directly connected to wealth, power, and respect:

1. Pleasure Destroy Focus

Every hour spent chasing women is an hour stolen from your goals. Texting, dating, and planning hotel visits might feel exciting, but it distracts you from learning, hustling, and building wealth and success. Lesson: Energy spent on pleasure is energy stolen from your future.

2. Emotional weakness leads to financial weakness

Young men who cannot control desire are easily manipulated. Women, business partners, and even friends can sense your lack of discipline. You lose respect, influence, and opportunities because people cannot trust a man who cannot control himself. Lesson: Self-control in sexuality equals control over your life.

3. Chasing women burns money

Gifts, fancy dinners, trips, bills—you spend more than you earn without even realizing. Many men chase pleasure so hard that they cannot save or invest. Even some young men use their pocket money in school to chase women and stay starved and hungry. Lesson: Money follows discipline, not desires. Build yourself and women will chase you.

4. Sexual indiscipline creates mental fatigue

Your mind is your greatest asset. Young men who sleep around or constantly chase women are mentally drained. Their focus is scattered, their ideas shallow, and their decision-making weak. Lesson: Protect your mind. Sexual energy powers creativity and productivity.

5. Men lose time they can never recover back

Time is wealth. Every minute wasted on unnecessary sexual pursuits is a minute not spent on learning skills, building businesses, or networking. Lesson: Guard your time. Those who value pleasure over purpose fall behind.

6. Sexual energy equals leadership energy

Strong men know sexual energy is powerful. When harnessed, it fuels confidence, courage, focus, and drive. When wasted on casual encounters, it leaves you weak, insecure, and directionless. Lesson: Energy controlled is

power multiplied.

7. Casual sex steals long term vision

Young men obsessed with short-term pleasure often lose sight of long-term goals.

They settle for temporary happiness and never build legacies. Lesson: Sacrifice temporary pleasure today for permanent success tomorrow.

8. Lack of discipline attracts problems

Sexual recklessness can bring disease, legal issues, emotional baggage, and toxic relationships. These problems cost time, money, and focus. Lesson: Protect your body, your heart, and your future.

9. Financial success requires strategic thinking

A young man chasing women constantly is not thinking strategically. He makes impulsive decisions, avoids hard work, and relies on instant gratification.

Lesson: Wealth is built by planning, patience, and self-control.

10. Self-control separate winners from losers

Every successful man you admire mastered his urges first. Sexual discipline breeds respect, clarity, and energy. It allows men to invest, build, and lead without being dragged by desires. Lesson: Master your body, your mind, and your impulses—and money will follow.

FINAL WORDS:

If you want to be wealthy, respected, and powerful, start by controlling your sexual urge. Women will always be there. Opportunities will not. Self-control is your secret weapon. Waste it, and life will waste you.
