RAISING A GODLY GENERATION

ATTITUDE IS KEY

Attitude is everything. This is simply because every principle of success is expressed in our attitude which sometimes makes attitude the single most determining factor of success. Attitude is both your best friend and your worst enemy because it attracts people to you or repels them from you. Your attitude expresses itself in everything you do all the time; wherever you are, people can see it, hear it in your voice, see it in the way you move and feel it when they are with you.

Right attitude is the product of a sound mind that makes you to take the right discussions. The right attitude will prepare you to take up the obstacles as challenges and move persistently with the commitment to fight them with patience and perseverance.

Your attitude shapes your goals and affects how you perceive, and affects how you

perceive, view and approach things in your life. The wrong attitude will make you want to quit at every obstacle, develop a damaged impression and lose confidence in yourself.

As you keep in mind that positive and negative attitude are infectious, having the right attitude can turn threatening situations into opportunities, obstacles into achievements and more you into greatness. Face any difficult task or assignment with passion, vigour, self-discipline, temperance and a mind to be successful. The right attitude will deliver the major breakthrough and make the difference at the time you need it most in your career growth.

With the right attitude, you are emotionally strong enough to climb the tough heights of success and walk through the pain of failures. You learn to see your mistakes as an opportunity to learn how to do it in a different way and get stronger. It is the right attitude that keeps you going days when all hope seems lost.

As you take charge of your attitude you open the door for success in your life. So your attitude about your school, your subjects, you teachers and about your class will ultimately determine the quality of your work. This is because your attitude determines your altitude. Positive attitude propels good character and good character promotes a good sense of responsibility which ultimately takes one to the top.

Quote

The greatest discovery of any generation is that a human being can alter his life by altering his attitude.

Ask yourself:

How can you help a quiet, shy and reserved student overcome these challenges, learn to mix up and display positive attitude?
